

Nafees Al Mahadi

Computer Science Student, Software Developer and Researcher.

nafeesalmahadi007@gmail.com **+8801316305345** **Dhaka, Bangladesh**

Career Snapshot

A highly motivated and detail-oriented Computer Science student at IUBAT, with strong skills in financial modeling, database administration, and IT infrastructure. Seeking to leverage my technical expertise, leadership experience, and communication skills to contribute to innovative projects in technology and finance. Eager to grow in a dynamic organization where I can apply my knowledge and gain practical experience to drive impactful solutions.

Work Experience

- **Research Assistant - (RA) & Teaching Assistant - (TA)**

  DeepScope Research

  Jan 2026 - Present

- **Customer Service Executive**

  SkyTech Solutions

  Dec 2022 - Dec 2023

- **Assistant Director**

  Retro Production

  Dec 2021 - Dec 2022

Education

- **Higher Secondary Certificate (HSC)**

  BAF SHAHEEN SCHOOL & COLLEGE, Tejgaon
  GPA: 5.00
  Session: 2017-2019

- **Secondary School Certificate (SSC)**

  MONIPUR HIGH SCHOOL & COLLEGE
  GPA: 5.00
  Session: 2007-2017

- **University**

  INTERNATIONAL UNIVERSITY OF BUSINESS AGRICULTUTE AND TECHNOLOGY (IUBAT)
  Studying - Bachelor of Science in Computer Science & Engineering **(CSE)**
  CGPA: 3.00 (Final Year)

Skills

- **Programming Languages (Python, C, C++, C# (.NET), PHP)**
- **Web Technologies (HTML, CSS, Django, Web Engineering)**
- **Databases (SQL, Database Management)**

- **Artificial Intelligence (Machine Learning, Deep Learning, NLP, Artificial Intelligence)**
- **Software Development & System Analyst**
- **Cyber Security (Linux, Ethical Hacking)**
- **Business & Finance (Business Analysis, Financial Modelling)**
- **Researcher (Research & Development field of Computer Science)**
- **Soft Skills (Excellent Communication Skills)**

Projects :

---

1. DisEase.Ai and Report Analysis

Completed • Personal
(Dec 2025 - Jan 2026)

Description :

Developed an **AI-powered healthcare assistant** using **HTML**, **CSS**, **JS**, **Django** and **SQLite** that performs symptom-based disease prediction and delivers end-to-end patient guidance, including treatment insights, lifestyle recommendations, and doctor suggestions. Implemented medical image analysis for radiology reports (X-ray, MRI) with automated summarization and report generation, improving accessibility and understanding of diagnostic data.

---

2. Two Wheeler (Car Management System)

Completed • Academic
(Apr 2024 - May 2024)

Description :

Developed a full-stack car booking management system using **HTML**, **CSS**, **JS**, **PHP**, and **MySQL**, enabling users to register, log in, browse available vehicles, and complete bookings seamlessly. Implemented service management features with automated invoice generation, enhancing transaction transparency and overall user experience. Designed and optimized the database schema to ensure efficient data storage and retrieval. Improved system usability by creating a responsive interface and ensuring smooth navigation across all modules.

---

3. Online Learning Management System (OLMS)

Completed • Personal
(Nov 2025 - Nov 2025)

Description :

Developed a full-featured online learning management system using **HTML**, **CSS**, **JS**, **Django** and **SQLite**, enabling students to browse and purchase courses through an intuitive interface. Implemented secure user authentication and role-based access for students and instructors. Designed course management functionality allowing structured content delivery and easy navigation. Integrated a real-time chat system to facilitate direct communication between students and instructors for resolving course-related queries. Ensured efficient data handling and storage using SQLite as the backend database. Focused on usability, responsiveness, and seamless user experience across the platform. Enhanced overall learning engagement by combining course access with interactive support features.

---

4. Fix Buddy (Freelance Marketplace Management System)

Completed • Personal
(Sep 2025 - Dec 2025)

Description :

Developed a freelance marketplace platform for **home service mechanics**, inspired by **Fiverr**, using **HTML**, **CSS**, **JS**, **Django** and **SQLite**. Implemented secure user authentication, allowing users to sign up, log in, and manage their accounts efficiently. Designed a dynamic listing system where mechanics can post service ads displayed as interactive cards for easy browsing. Enabled users to view detailed mechanic profiles, including skills, experience, and service information. Built a hiring workflow that allows users to select and hire mechanics for specific tasks seamlessly. Optimized backend data handling using **SQLite** for efficient storage and retrieval. Focused on user-friendly design and smooth navigation to enhance overall platform usability and engagement.

Extracurricular Activities

- **IEEE Computational Intelligence Society (CIS) IUBAT Student Branch Chapter**
  - **Chairperson**

  (June 2026 - Present)
- **Institute of Electrical and Electronics Engineerings- IEEE**
  - **General Member**

  (Feb 2026 - Present)
- **IEEE Computer Society IUBAT Student Branch Chapter**
  - **General Member**

  (March 2026 - Present)
- **IUBAT IT Society**
  - **Finance Manager • Departmental club**

  (July 2025 - Present)
- **IUBAT Students Association of Patuakhali (ISAP)**
  - **General Secretary • club**

  (Sep 2025 - Present)
